

As of 1:00 p.m. today the Bradford County Commissioners have declared a county wide State of Emergency. While under a declaration of emergency there is to be no unnecessary travel. There are numerous roads that are water covered, washed out and bridges that are being affected by the high water. The National Weather Service is predicting additional rainfall to occur throughout the day and into tonight.

Due to these conditions creating a risk to the health and safety of the citizens of Bradford County the Commissioners have declared this State of Emergency.

The 911 system should only be used for true emergencies, Please tune to your local radio and TV to get the latest news and weather updates. Emergencies can also be called into the Emergency Management Agency at 570-265-5022.
